DesMoines TCE RA Tech Memo Draft 08042016.docx

Erin –

I had our risk assessor (Dr. David Homer) put together a technical memorandum describing how we would go about performing the human health risk assessment. I've found it helpful in having everyone agree upfront on the approach and assumptions. It saves a lot of rework and ultimately is more cost effective. The technical memorandum is attached for your review and your risk assessor's review. If you have any questions, feel free to contact me.

Have you heard anymore from your lab on the rest of the analytical data?

Best,

-Mike
